

10-8-16 Palisades-Kepler State Park

Aleurodiscus oakesii (Oak Bark Eater)
Armillaria mellea grp. (Honey Mushroom)
Cerrena unicolor (Mossy Polypore; gray maze-like underside)
Coprinus sp. (Inky Cap)
Crepidotus sp.
Crinula caliciiformis (imperfect form of *Holwaya mucida*)
Daldinia concentrica (Carbon Balls)
Entoloma abortivum (Marshmallow Mushroom; parasitic on Honey Mushrooms)
Galerina marginata (= *G. autumnalis*; POISONOUS Little Brown Mushroom)
Ganoderma applanatum (Artist's Conk)
Gymnopilus cf. *sapineus* (cap fibrillose)
Hymenochaete tabacina (Tobacco Crust; effused-reflexed crust)
Holwaya mucida
Hypoxylon sp.
Inocybe sp. (Fiber Head)
Irpex lacteus (Milk Tooth)
Globifomes graveolens (Sweet Knot)
Ischnoderma resinoseum (Resinous Polypore)
Laccaria sp.
Lactarius hygrophoroides (Milk Cap; like *L. volemus* but not staining)
Lactarius sp.
Lycoperdon pyriforme (Pear-shaped Puffball on wood)
Metatrachia vesparium (Multigoblet Slime; a myxomycete)
Mycena haematopus (Bleeding Mycena)
Mycena leaiana (Lady Lion)
Mycena luteopallens (Nut Mycena)
Mycena spp.
Omphalotus illudens (Jack O'Lantern; *O. olearius* is a European species; POISONOUS)
Phlebia incarnata (= *Merulius incarnatus*)
Phlebia tremellosa (= *Merulius tremellosus*)
Pleurotus ostreatus (Oyster Mushroom, Elm Oyster)
Pluteus cervinus (Deer Mushroom)
Polycephalomyces tomentosus (rarely reported: hyphomycete growing on *M. vesparium*)
Polyporus alveolaris (= *P. mori*, *Favolus alveolaris*; orange hexagonal pores)
Polyporus badius (Big Black Foot; tears like canvas)
Psathyrella cf. *hydrophila*
Russula spp. (Crumble Caps)
Sarcoscypha occidentalis (Red Cups)
Schizophyllum commune (Split Gill)
Scutellinia sp. (Eyelash Cup)
Stereum complicatum (Orange Parchment Fungus)
Stereum ostrea (Common Parchment Fungus, False Turkey Tail)
Trametes elegans (= *Daedaleopsis ambigua*; Ambiguous Polypore)
Tyromyces chioneus (White Cheese Polypore)
Ustulina deusta (Carbon Cushion; current name *Kretzschmaria deusta*)
Xylobolus frustulatus (Cracked Parchment)
